SECONDARY APPLICATIONS AND OFFERS – NATIONAL OFFER DAY 2 MARCH 2009

INTRODUCTION

The Information as to Provision of Education (England) Regulations 2008, which came in to force on 14 February 2008, require local authorities to submit data to the Department on how many families received an offer of a place at one of their preferred schools on 2 March 2009. On 2 March nearly 547,000 families were informed of their offer of a secondary school place for their children in September 2009.

These are Official Statistics not National Statistics. They have been collected and compiled by the Department's policy officials in consultation with statisticians who provided quality assurance.

KEY POINTS

Secondary Applications and Offers (Table 1)

The headline figures for England for 149 local authorities (the Council of the Isles of Scilly has been excluded as it has one school where the normal point of entry is at aged 3 and pupils continue until aged 16), are as follows:

- 83.2 per cent of families received an offer of a place at their highest preference school – an increase of 1.1 percentage point from March 2008.
- 94.6 per cent of families received an offer of a place at one of their top three preferred schools – an increase of 0.6 percentage points from March 2008.
- 96.2 per cent of families received an offer of a place at one of their preferred schools – an increase of 0.6 percentage points from March 2008.

Guidance on interpretation of the local authority figures

A few points should be borne in mind when looking at the figures for each local authority:

- Each local authority co-ordinates admissions to the maintained schools in its area. Applications for each school are ranked against the school's published oversubscription criteria by the admission authority for the school. Where a child can be offered a place at more than one of their preferred schools, the local authority makes an offer at the school their parents ranked highest.
- Each local authority provides data on applicants resident in their area, including applications for schools in the area of other local authorities.
- 'Home applicants with an alternative offer' includes offers made by local authorities to parents that didn't complete an application form.

- When the figure for 'Home applicants with an alternative offer' is lower than that for 'Home applicants without an offer corresponding to any preference', this is generally because local authorities have started another preference exercise (based on surplus places) or the child did not require another place/offer.
- The data relates to applications for transfer from primary to secondary school made during the normal admission round. The vast majority of returns are based on data for pupils moving to year 7, but a small number of local authorities have reported on another year group which is the normal point of entry in their area.

As part of the data collection process, local authorities had the option to provide contextual information setting out factors which might impact on figures in their area. From the information provided several common issues emerged:

- A fall in the birth rate leading to fewer eleven year olds transferring to secondary school this year than last which, in some cases, has led to an increase in the percentage of applicants being offered their first preference school.
- The effect that having one or more very popular, heavily oversubscribed schools has on the percentage of applicants being offered a place at their first preference school.

In local authorities that have selective schools:

- An increase in the percentage of applicants being offered their first preference school where the timing of tests for selective schools has been brought forward so that parents know the results of the test before they express a preference.
- The effect on the percentage of applicants being offered their first preference school where parents do not know the outcome of tests before they express a preference

NOTES TO EDITORS

1. This is the second year that secondary preference data has been collected and published. Data for 2008 is available at <http://www.dcsf.gov.uk/rsgateway/DB/STA/t000791/index.shtml>.
2. Local authorities are required to provide the data to the Secretary of State on 1 March each year (or the next working day) as prescribed in The Information as to Provision of Education (England) Regulations 2008.
3. The Information as to Provision of Education (England) Regulations 2008 (SI 2008/4) are available to view at www.opsi.gov.uk.
4. The data includes returns from 149 local authorities. The Council of the Isles of Scilly has been excluded as it has one school where the normal point of entry is at aged 3 and pupils continue until aged 16.
5. For some local authorities the year of entry varies from Year 7 and is indicated where appropriate.
7. The following provides definitions of key headings used in Table 1:
 - National Curriculum Year of Admission – the normal curriculum year of entry to schools within the local authority i.e. Year 7 is aged 11

- Applications received from parents of children living in the area of the authority – the number of applications received
- The sum of admission numbers of all secondary schools – the number of places available in schools within the local authority
- Number of preferences offered by the local authority – the number of schools parents can apply for in their application
- Percentage of offers communicated
 - a. Highest preference – percentage of applicants who received an offer to their first preference school
 - b. Second preference – percentage of applicants who received an offer to their second preference school
 - c. Third preference – percentage of applicants who received an offer to their third preference school
 - d. A preferred school – percentage of applicants who received an offer to one of their preferred schools (this may be up to a sixth preference school)
- Home applicants without an offer corresponding to any preference – percentage of applicants without an offer to one of their preferred schools
- Home applicants with an alternative offer – of those without an offer to a preferred school, the percentage of applicants with an offer to an alternative school. This may also include offers made to families that did not make an application.
- Home applicants with offers to a school in the area of the local authority – percentage of applicants living in the local authority area who received an offer to a school within the local authority area
- Home applicants with offers to a school in another local authority – percentage of applicants living in the local authority area who received an offer to a school in the area of another local authority
